# MAKE THE RIGHT CONNECTIONS WITH PATCH CABLES FROM CE COMM

Patch cables are used for connections to telecommunication networks such as servers and or switches, computer fiber networks and fiber test equipment.

Applications include:
Communication rooms, FTTH (Fiber to The Home), LAN (Local Area Network), FOS (fiber optic sensor), Fiber Optic Communication System, Optical fiber connected and transmitted equipment, Defense combat readiness, etc.

DIFFERENT STYLES OF CONNECTORS

In the USA for networking and audio/video, the three most popular styles are:

- LC
- SC
- ST

LC and SC tend to be the most commonly used styles.
